

**Earth and Planetary Science
Fall 2009**

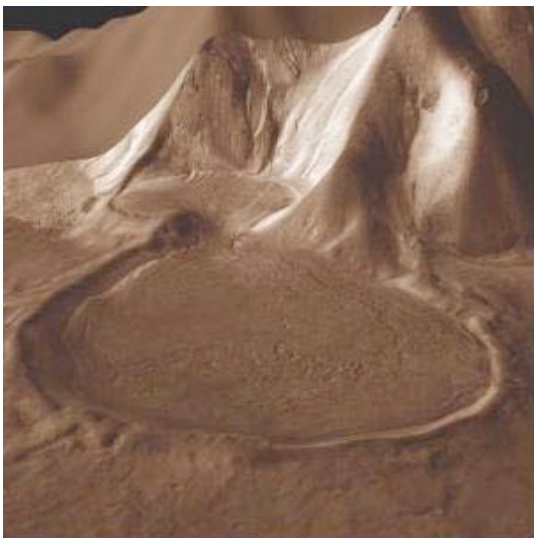

EPS 150

Case Studies in Earth Systems

Professor Roland Bürgmann

F 12 – 2 pm
265 McCone Hall

CCN:19072
2 units

Analysis and discussion of two research problems on the interactions of solid earth, hydrologic, chemical, and atmospheric processes. Emphasis will be placed on the synthesis and application of the student's disciplinary knowledge to a new integrative problem in the earth sciences.
