<input type="checkbox"/> Freeze	*****	Solid	1.00	<input type="checkbox"/> ON
---------------------------------	-------	-------	------	-----------------------------

Action global replace

Subset Retrieve Symbol layers

Load layers Save layers Filter functions Add new layer Delete existing layers Close

Scroll down to the last layer (LOCATOR) and click FREEZE
Then click CLOSE and redraw. The Grid names will disappear

The screenshot displays a GIS software interface. At the top is a toolbar with various icons for map operations. Below the toolbar is a map showing a topographic contour map with red grid lines labeled 'A-5' and 'B-5'. In the foreground, a 'Layers Available' dialog box is open, listing several layers. The 'LOCATOR' layer is selected, and its 'Freeze' checkbox is checked. Red arrows point to the 'LOCATOR' layer and its 'Freeze' checkbox. The dialog box also includes a 'Global replace parameters' section and buttons for 'Load layers', 'Save layers', 'Filter functions', 'Add new layer', 'Delete existing layers', and 'Close'.
