

Acquiring GeoMapper©

Two computer programs are required for running GeoMapper©: (1) GeoMapper© which is provided free of charge except for the costs of shipping the installation disc to the end user, and (2) PenMap© Classic which is distributed by PenMap.com.

After you have purchased PenMap Classic using the link to the right “[Purchasing PenMap Classic.doc](#)” then email George Brimhall at: brimhall@berkeley.edu.

An installation disc will be prepared and mailed to you within about 1 or 2 weeks. You will be requested to refund the cost of shipping.
