

EPS 39A

Prof. Rudy Wenk,

495 McCone, wenk@berkeley.edu

John Werner, Coordinator

Three graduate student drivers

Required Lectures (all in 325 McCone) are:

Wednesday January 18, 5-6 p.m.: Organizational meeting.

Wednesday January 25, 5-6 p.m.: Building blocks of the Earth.

Wednesday February 1, 5-6 p.m.: Geology of California.

Wednesday April 19, 5-6 p.m.: Organizational meeting for fieldtrip.

Fieldtrip

April 27-30, 2017

Geologic cross section through California, Sierra foothills (mining, caverns), Sierra Nevada plutonism, erosion, glaciation, Yosemite (requires strenuous hiking)

2 page report due May 8, 6 p.m.

- Get to know your local geology
- Hands-on experience. Learn by observing in the field (no prerequisites)
- 4-day fieldtrip
- Camping
- Hiking (3000 ft on day 3)
- \$180 Fee is required to cover cost of transportation and food.
- 39 does not count towards breadth requirements

- Be sure your name is on the list and check it off. Give your preferred e-mail.
- Be aware that late drop is difficult and incomplete (without participating in field trip) will not be granted, except for emergencies.
- Do not expect an automatic A. Your active participation is expected.
- If your name is not on the list, see me after our meeting. We can accommodate some who are on waiting list. Priority for Physical Sciences and some geology background.
- Any questions ?
- Return waiver form at the latest next week.
